

METAL MARC

We are a company committed to creating the best solutions for the food industry.

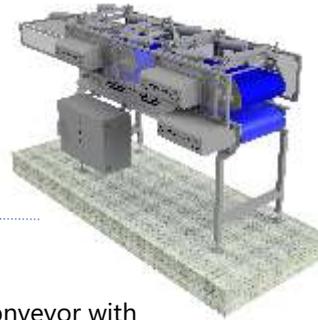

With over 25 years of experience in developing and improving equipment and production lines for the food industry.

We design projects tailored to our clients' needs, delivering customized production lines to ensure maximum performance and productivity, always focusing on agility in service and product delivery.

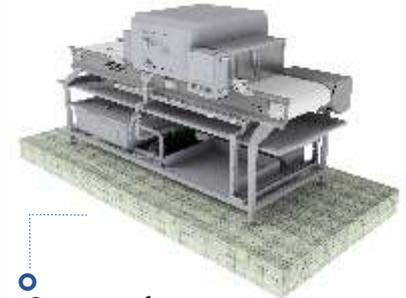

Our goal is to provide a complete solution: **mechanical + electrical + automation**, while maintaining quality and efficiency in compliance with industry standards.

Over 25 years delivering agility and efficiency.
